Experiment-6

CREATE A SIMPLE CLOUD SOFTWARE APPLICATION FOR PRODUCT SELLING USING ANY CLOUD SERVICE PROVIDER TO DEMONSTRATE SAAS.

Aim:

To create a simple cloud software application for product selling using any cloud service provider to demonstrate saas.

Procedure

Step 1: Go to zoho.com.

Step 2: Log into the zoho.com.

Step 3: Select one application step.

Step 4: Enter application name as product selling.

Step 5: Created new application as product selling.

Step 6: Select one form

Step 7: The software has been created.

Implementation:

```
if(input.Product_Name == "Laptop")
{
    input.Price = 50000;
}
else if(input.Product_Name == "Mobile Phone")
{
    input.Price = 20000;
```

```
}  
else if(input.Product_Name == "Headphones")  
{  
    input.Price = 2000;  
}  
else if(input.Product_Name == "Smart Watch")  
{  
    input.Price = 5000;  
}  
else if(input.Product_Name == "Keyboard")  
{  
    input.Price = 1000;  
}  
else if(input.Product_Name == "Mouse")  
{  
    input.Price = 500;  
}
```

Result

A simple cloud software application product selling system was successfully created using **Zoho Creator** and deployed as a **Software as a Service (SaaS)** application. The application allows users to enter product details, automatically calculates the total amount, stores the records in the cloud, and can be accessed through a web browser from anywhere with Internet connectivity.
